### **DETAILED ACTION**

1. Applicant's Amendment filed on October 02, 2008 in response to Examiner's Office Action has been reviewed. Claims 29-36 and 47 are pending in the application. Claims 1-28 and 37-46 are canceled. This Office Action is made Final.

#### ***Terminal Disclaimer***

2. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c). For instance, The Terminal Disclaimer filed October 02, 2008 has been disapproved because the attorney is not of record. A new Power of Attorney is required.

#### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225

Art Unit: 2627

USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 29-36 and 47 are rejected on the ground of nonstatutory double patenting over claims 1-4 of U. S. Patent No. 6,330,561 and claims 1-12 of U.S. Patent No. 6,751,608 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: a method for transferring information to a proxy server.

#### ***Allowable Subject Matter***

4. Claims 29-36 and 47 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2627

the prior art of record fails to teach or suggest individually or in combination detecting when a first resource is requested of the resource server; identifying a second resource that is requested from said resource server within a time period following the request for the first resource; determining a probability that said resource will also be requested if said first resource is requested; and if said probability satisfies a minimum threshold then associating said first resource and said second resource in a volume as set forth in the independent claim 29, and creating a volume of resources from a plurality of resources available to a server, each of said plurality of resources having an associated directory prefix, analyzing the directory prefix of each of a said plurality of resources; dividing the resources into a plurality of subsets based on matching directory prefixes of the resources to a predetermined prefix level and associating resources in at least one of said plurality of subsets in a respective volume, wherein each said volume includes an identifier for each resource associated with the respective volume as set forth in the independent claim 34,

Claims 30-33, 35, 36 and 47 further limiting to claims 29 and 34 are also allowed.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2627

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
